

A RESOLUTION

Requesting the President to further explore the potential of wave energy in the Federated States of Micronesia, including investigation into the viability of such projects in the four States, and funding of such projects through grants and/or other international aid.

1 WHEREAS, some citizens of the Federated States of Micronesia
2 do not have access to electrical power, and many other of our
3 citizens do not live up to their personal or professional
4 potential due to limits imposed by the high cost of electrical
5 power; and

6 WHEREAS, the same citizens of the Federated States of
7 Micronesia would greatly benefit from access to a lower cost,
8 cleaner energy source; and

9 WHEREAS, the welfare of the people of the Federated States of
10 Micronesia is of primary concern to its government; and

11 WHEREAS, wave energy is an environmentally sustainable and a
12 potentially well-suited new source of energy for our island
13 nation; and

14 WHEREAS, wave energy merits further investigation by the
15 National Government of the Federated States of Micronesia as to
16 the viability of such projects in our four states, and possible
17 funding of such projects through grants and/or other international
18 aid; now, therefore,

19 BE IT RESOLVED by the Seventeenth Congress of the Federated
20 States of Micronesia, Sixth Regular Session 2013, that the

1 Congress hereby requests the President to further explore the
2 potential of wave energy in the Federated States of Micronesia,
3 including investigation into the viability of such projects in the
4 four states, and funding of such projects through grants/or other
5 international aid; and.

6 BE IT FURTHER RESOLVED that a certified copy of this
7 resolution by transmitted to the President of the Federated States
8 of Micronesia.
